

Mr. Sahin Halder serves as a Senior Quantity Surveyor at Samsung C&T Corporation in Hazrat Shahjalal International Airport Expansion Project. His competencies span various domains, including Alternative dispute resolution, Contract Administration, Tendering, Budgeting, Cost Control and Planning, Cost Value Reconciliation, Final Account Settlement, and Profit-Loss Analysis.

Sahin holds a B.Sc. in Civil Engineering from the University of Asia Pacific and MS in GIS for Environment and Development from Jahangirnagar University. He actively pursues RICS membership (Royal Institution of Chartered Surveyors, UK) and earned a Professional Certificate Course in Advance Quantity Surveying Practices and Contracts Management through QS4QS, certified by RICS.

Sahin's career has been marked by influential roles in multinational corporations and prestigious projects, such as the SASEC Road Connectivity Project- II with China Construction 7th Engineering Division Corp. Ltd and the Dhaka-Maowa-Khulna (N8) Highway Improvement Project with China Harbour Engineering Company Ltd.

As a member of The Institution of Engineers, Bangladesh (IEB), Sahin underscores his commitment to engineering excellence. His extensive experience, academic qualifications, and dedication position him as a valuable asset in construction management. Sahin eagerly anticipates contributing to BIAC's mission, fostering equitable dispute resolution mechanisms, and promoting an investment-friendly atmosphere in Bangladesh, ultimately advancing development initiatives.
